DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

Leigh Pegues, Director  
1751 Cong. W. L. Dickinson Drive  
Montgomery, AL 36130

August 3, 1990

Guy Hunt  
Governor

6

The Honorable William K. Reilly  
Administrator  
U.S. Environmental Protection Agency  
401 M Street, S.W.  
Washington, D.C. 20460

Dear Mr. Reilly:

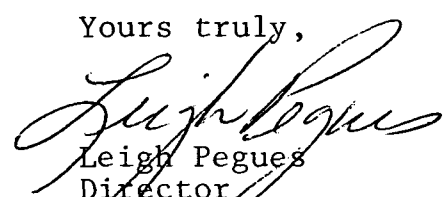

It is my understanding that Ethyl Corporation, a major chemical company, has asked the EPA for a waiver under the Clean Air Act to allow the use of HITEC 3000 as a gasoline additive.

With EPA approval, the company will be able to market their product for use in all United States gasoline.

I am told that the company has completed a series of tests and that their evaluation indicates that this product will have positive implications for our nation's air quality.

In order to improve air quality, we must consider a wide range of policy actions to reduce pollution. If this product can produce positive results without adverse impact on our health and environment, I would recommend your approval.

Yours truly,

  
Leigh Pegues  
Director
